

**TRAINING OF SCHOOL FEEDING CATERERS AND FOOD IN SABOBA
DISTRICT, 2022**

DATE: 22ND JUNE, 2022 VENUE: PWDS CONFERENCE HALL, SABOBA

Training was organized for School Feeding caterer and food vendors in the District, in collaboration with Ghana Health Service and Environmental Health Unit.

What was discussed during the training included food and meat hygiene, personal and environmental hygiene, Safe handling of cooked and uncooked foods. The use of locally available to cook nutritious meals. Reduce the use of mono sodium glutamate in the preparation of meals.

Safe storage and handling of water. The facilitators also entreated the caterers and Food Vendors to go for Medical checks to make them fit to handle food, cook and serve the general population.

Challenges

1. Inadequate funds to train large number of vendors and caterers.
2. Difficult in bringing the team to point since some of them do not have holidays.
3. Difficult in convincing food vendors to come in for training.

Way forward

1. Periodic training of caterers and food vendors.
2. More funds should be made available for training in the district.

Attached is a list of School Feeding Caterers and Food Vendors who participated in the training.
